

Patent Pending

## Cobra Tamperproof Key Rings <sup>TM</sup>

Our patent pending key rings cannot be compromised or removed once sealed without detection. Built from stainless steel and laser engraved with uniquely serialized numbers, which gives you maximum security at all times.

### Security Features:

- Laser engraved with individual serial numbered rings which allows easy reading of the serial numbers and provides an audit trail.
- Only one tool needed which closes key rings. This reduces your time and tooling costs.
- Our high security key ring design cannot be opened and closed without detection.

<u>SIZE(in)</u>	<u>LENGTH(in)</u>	<u>SIZE(cm)</u>	<u>TYPE</u>	<u>PART NUMBER</u>
